DETAILED ACTION

The amendment and declaration filed June 1, 2004 have been acknowledged.

The text of those sections of Title 35, U.S. Code not included in this action can be found in the prior Office action.

Requirement for Information follows regarding specifics of a potential offer for sale.

Rule 105 Requirements for Information

An issue of public use or on sale activity has been raised in this application. Applicant should give evidence why the Garden Mum Catalog distributed on October 17, 2001 was not an offer for sale. Applicant should also indicate whether the claimed plant was ready for patenting, more than one year prior to the effective filing date of this instant application (see MPEP

2133.03(c) I). The MPEP 2133.03 states:

The Invention Must Be "Ready for Patenting" at the Time of the Sale In *Pfaff v. Wells Elecs., Inc.*, 525 U.S. 55, 66-68, 119 S.Ct. 304, 311-12, 48 USPQ2d 1641, 1647 (1998), the Supreme Court enunciated a two-prong test for determining whether an invention was "on sale" within the meaning of 35 U.S.C. 102(b) even if it has not yet been reduced to practice. "[T]he on-sale bar applies when two conditions are satisfied before the critical date [more than one year before the effective filing date of the U.S. application]. First, the product must be the subject of a commercial offer for sale.... Second, the invention must be ready for patenting." *Id.* at 67, 119 S.Ct. at 311-12, 48 USPQ2d at 1646-47. "Ready for patenting," the second prong of the *Pfaff* test, "may be satisfied in at least two ways: by proof of reduction to practice before the critical date; or by proof that prior to the critical date the inventor had prepared drawings or other descriptions of the invention that were sufficiently specific to enable a person skilled in the art to practice the invention." *Id.* at 67, 199 S.Ct. at 311-12, 48 USPQ2d at 1647 (The patent was held invalid because the invention for a computer chip socket was "ready for patenting" when it was offered for sale more than one year prior to the application filing date. Even though the invention had not yet been reduced to practice, the manufacturer was able to produce the claimed computer chip sockets using the inventor's detailed drawings and specifications, and those sockets contained all elements of invention claimed in the patent.). See also *Weatherchem Corp. v. J.L. Clark Inc.*, 163 F.3d 1326, 1333, 49 USPQ2d 1001, 1006-07 (Fed. Cir. 1998) (The invention was held "ready for patenting" since the detailed drawings of plastic dispensing caps offered for sale "contained each limitation of the claims and were sufficiently specific to enable person skilled in art to practice the invention"). If the invention was actually reduced to practice before being sold or offered for sale more than 1 year before filing of the application, a patent will be barred.

In addition, Applicant should clearly and in depth set forth how this catalog listing is merely an advertisement (page 2 of IDS filed on June 1, 2004) especially since a call to Royal Van Zanten

Art Unit: 1661

or Ball Seed Company would reveal pricing information of the plant (Gardenmum Catalog 2002, page 16).

In order for the examiner to properly consider patentability of the claimed invention under 35 U.S.C. 102(b), additional information regarding this issue is required as follows:

1. The relationship between Royal Van Zanten and Ball Seed Company. It is not clear whether Royal Van Zanten controls Ball Seed Company. In addition, it is uncertain if Ball Seed Company buys or merely distributes the claimed invention.
2. It appears the catalog constitutes an offer for sale to Ball Seed Company because the catalog was presented at a conference on October 17, 2001 (disclosed in the Information Disclosure Statement (IDS) filed June 1, 2004, page 2 and the Hesse declaration, page 1). Also, Applicant states that the catalogs did not include any pricing information and if that information is needed that the potential customers may contact Ball Seed or Royal Van Zanten for prices (page 3 of IDS, page 2 of the Hesse declaration and Gardenmum Catalog 2002, page 16).
3. It is uncertain if the sales representatives of Ball Seed Company at the conference in Chicago on October 17, 2001 were able to place orders of the claimed plant more than one year prior to the effective filing date of the instant application.
4. In the IDS on page 2 and the Hesse declaration on page 1, they state that Royal Van Zanten sold its varieties to "select few customers directly". It is unclear if the claimed plant was for sale more than one year prior to the effective filing date of this instant application.
5. It is unclear if the catalog represented and offers for sale. It is also unclear whether any order for the plant were received prior to October 24, 2001 and whether any acceptance of any offer was made.

Art Unit: 1661

This Office action has an attached requirement for information under 37 CFR 1.105. A complete reply to this Office action must include a complete response to the attached requirement for information. The time period for reply to the attached requirement coincides with the time period for reply to this Office action.

In order to consider whether a 102(b) rejection should be applied, the Examiner is requesting information pertaining to the claimed cultivar.

Applicant is reminded that failure to fully reply to this requirement for information will result in a holding of abandonment.

Claim Rejections - 35 USC § 112

Claim 1 remains rejected under 35 USC 112, first and second paragraphs because the claim is drawn to the plant as shown and illustrated. There is no photograph of 'Dove Bronze'.

Drawing

The disclosure is objected to under 37 CFR 1.165(a) because the present photograph in this application is a photograph of copending application serial number 10/693,364, *Chrysanthemum* 'Nighthawk Yellow'. A replacement photograph is required.

Conclusion

No claim is allowed.
